WEATHER SYNOPSIS BY REGION

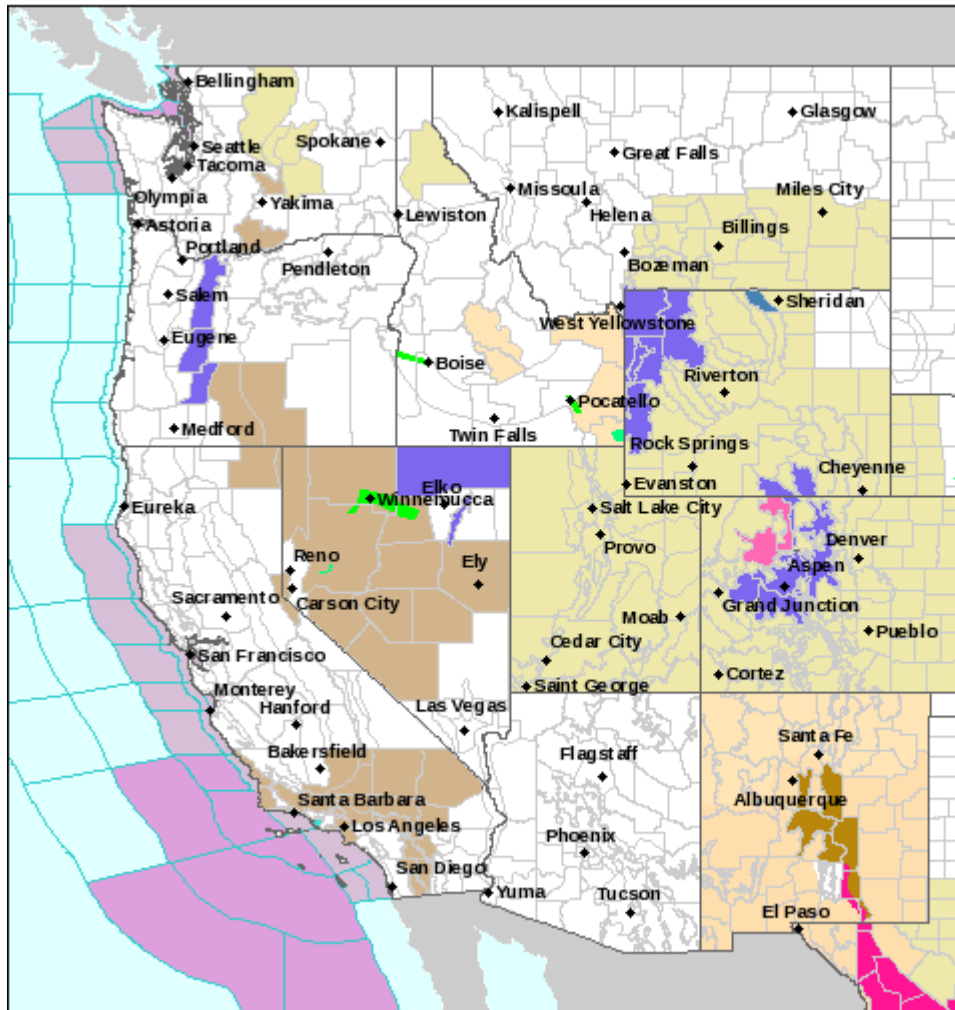

NORTHERN CALIFORNIA

Light rain showers will linger over Northern California through tonight as a northwesterly flow aloft continues. Snow levels are around 7000 feet or higher. Southwest to west winds will increase this afternoon, with the strongest winds mainly over the higher terrain in eastern areas. Peak gusts there could reach 40-50 mph, while 20-30 mph gusts will be common elsewhere. Scattered high clouds will still be overhead on Thursday, but the trend will be for decreasing clouds with warmer and drier conditions as high pressure moves in and produces a Northwest to northeast surface wind pattern. Peak gusts will be early Friday, with gusts in wind-prone areas in and around the Sacramento Valley reaching 25-35 mph. The warming and drying trend will continue through the weekend. Temperatures will increase from 1-4 degrees below normal today to 7-10 degrees above normal by Sunday. At this time next week looks mild to warm and mostly dry, but with occasional mountain showers or thunderstorms toward the middle and end of the week.

SOUTHERN CALIFORNIA

Prevailing northwesterly flow will continue to generate gusty north to northwest winds over many areas today. At the current time, the strongest winds are blowing across the Kern County Mountains eastward into the Antelope Valley where some gusts exceeding 40 mph are occurring. It will continue to be windy in this area tonight through Thursday evening with winds remaining quite strong through the nighttime hours. It will also be windy along the central coast to Point Conception as well as in the Owens Valley where northwest winds of 20-30 mph will develop this afternoon. Temperatures today will be 3-5 degrees warmer, especially across the coastal areas due to less marine layer coverage. The weather will gradually trend warmer and less windy through Saturday. Most areas will see light winds by the weekend. Temperatures will reach the 90s in the interior valleys by Saturday but another trough may bring a slight amount of cooling Sunday through the first part of next week. Look for temperatures to remain a few degrees above normal Sunday through next Wednesday with highs reaching the 60s in the mountains to the mid to upper 80s at lower elevations with mostly sunny skies. Minimum relative humidity will become significantly lower Friday through the weekend with many areas below 6,000 feet seeing readings in the teens each day for 4-6 hours. But light winds should allow for good recovery each night.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2017-LAW-35429, 4/25/17, 1620 hours:** The Tuolumne County Sheriff's Office (TCSO) is requesting Search and Rescue (SAR) mutual aid assistance in the search for a 66 year old United States Forest Service (USFS) seasonal worker. The missing person (MP), who normally calls his wife every few days to check in, was last heard from on 04/17/17 when he left to work at his cabin outside of Eagle Meadows. His wife notified TCSO on 04/24/17 and they launched a search. On 04/25/17, the TCSO SAR team located his unoccupied snowmobile and tracks in the Eagle Creek drainage. California Highway Patrol (CHP) H-24 assisted and located additional tracks but were unable to locate the MP. TCSO is requesting 30 Type I Nordic Trained ground searchers with snow shoes, (6) 3-4 man snowmobile teams, an Overhead Team, and (1) UH-60 Blackhawk for personnel transport and searching + Friendly Force Trackers (and support). The search area elevation is up to 8,000 feet. Cal OES Law Duty Officer (LDO), with assistance from the Cal OES Region IV Assistant Chief (A/C), secured ground search and overhead support from Marin County Sheriff's Office, Contra Costa County Sheriff's Office, San Mateo Bay Area Mountain Rescue Unit (BAMRU), Fresno County Sheriff's Office, and winter trained Type Is from Santa Clara County Sheriff's Office. The California National Guard (CNG) will be providing a UH-60 out of Fresno. We were not able to secure any snowmobile teams. All personnel are requested to report by 0800 hours today, 04/26/17, at the Incident Command Post (ICP), Highway 108 at Eagle Meadows Rd. The Cal OES Region IV A/C will deploy to the ICP this morning. **Mission Ongoing.**

Cal OES MISSIONS
